Cume Conundrum *Continued*

On the heels of last week’s cume-related “Inside The Numbers” column is an equally detailed follow-up installment with individual markets and stations (rather than formats as highlighted last week) taking center stage.

As was the case a week ago, data from PPM metros Houston (#6) and Philadelphia (#7) as well as Washington, DC (#9) and Puerto Rico (#13) are not included; Riverside (#26); Sacramento (#27); Cleveland (#28); and Cincinnati (#29) are used instead.

- In order to be considered, stations had to register at least a 1.0-share (12+) this spring.
- Arranged in descending market size are a station’s calls; format; spring 2007 12+ AQH share; spring 2008 12+ AQH share; spring 2008 cume; spring 2008 cume rank (noted in parentheses); and spring 2008 12+ AQH rank.
- Artificial cume rank cut-offs (top ten, ten 15 or in some markets even top 20) would have meant omission of several noteworthy AQH performers; thus all stations with at least a one-share (12+, AQH total week) are noted.
- Comparisons cited are spring 2007-spring 2008.
- Twin asterisks (**) denote below-the-line signals while @@ designates stations no longer in a format.

- In **36%** of instances in these markets this spring, the same station ranked #1 in 12+ AQH **and** in cume.
- Stations accomplishing that impressive feat were: WVEE/Atlanta; WXKS-FM/Boston; WKQI/Detroit; KQRS/Minneapolis; KOA/Denver; WDVE/Pittsburgh; KGGI/Riverside; WTAM/Cleveland; and WLW/Cincinnati.

Cume Number Ones By Format

In a majority of cases (**56%**) **CHR/Pop (Top 40)** stations attracted the largest cume numbers in top 29 markets this spring (excluding Houston, Philadelphia, Washington and Puerto Rico).

The 25 stations highlighted below led their respective markets in terms of cume.

It was typical for this group's pacesetters to have registered a third-place (**#3.08**) 12+ AQH finish. The three Talk facilities topping their particular metros cume wise all (also) ranked first in 12+ AQH.
